2026 Set Subject Definitions

Scapes - March

- sea: where the sea or waves predominate. Coastal features, people, boats, & man-made objects may be present but the last 3 should be incidental to the photograph.
- land: natural scenery with land and sky-based elements. Other elements should be incidental, and not dominate the image.
- city: a scene of urban buildings which are the main point of interest. It is not about the individual architecture or structures.

Spheres - May - Interclub Subject - Sphere or Spheres must be the dominant part of the image. The image can contain multiple or singular round objects of any substance, opacity or arrangement.

Action - July

- an image depicting a person, people, or animals doing something in a non-leisurely manner. Eg sport, an emergency, at play or at work.

Still Life - September

- the depiction of inanimate subject matter, typically a small group of objects, either natural or artificial. There are 2 types:
- found still life: a random collection of things that are arranged without any outside help. Meaning you don't move them to make your image. Eg. a yellow leaf against brown dirt; products arranged in an outdoor market; or even junk that has been placed aside a dumpster.
- created still life: inanimate objects (natural or man-made) that have been arranged to look a certain way. Synthetic scenes made up from models/figurines are excluded from Still Life.

Quiet - November

- a motionless, quiet and tranquil image that suggests peacefulness.
